Certified Quality, Every Batch

Kualitas tersertifikasi di setiap batch

Eight independently issued certificates and accreditations, all currently valid — covering food safety, organic integrity, dietary status, ethical labour practice, the certification bodies behind them, and our Indonesian manufacturing licence. Full copies of every certificate are available on request.

Delapan sertifikat dan akreditasi yang diterbitkan secara independen dan masih berlaku — mencakup keamanan pangan, integritas organik, status pangan, praktik ketenagakerjaan etis, badan sertifikasi penerbitnya, serta izin produksi Indonesia. Salinan lengkap tersedia atas permintaan.

Also produced under **SNI Indonesia** organic standards. Kosher Pareve status is held for both variants.

Juga diproduksi mengikuti standar organik SNI Indonesia. Status Kosher Pareve berlaku untuk kedua varian.

Origin, Infrastructure & Process

Asal, infrastruktur & proses

ORIGIN & CAPACITY

Sourced through a producer cooperative of **151 farming households in Banyumas, Central Java** — one of Southeast Asia's most renowned coconut sugar growing regions — with drying, grading, and packing at our partner facility in Citeureup, West Java. **20+ hectares** under cultivation and **1,000+ farming households** empowered across the network. Current capacity **48-50 tonnes/month**, scaling toward **150 tonnes/month by December 2026**.

Bersumber dari koperasi produsen yang terdiri dari 151 rumah tangga petani di Banyumas, Jawa Tengah — salah satu wilayah penghasil gula kelapa paling ternama di Asia Tenggara — dengan pengeringan, penyortiran, dan pengemasan di fasilitas mitra kami di Citeureup, Jawa Barat. Lebih dari 20 hektar lahan budidaya dan 1.000+ rumah tangga petani yang diberdayakan. Kapasitas saat ini 48-50 ton/bulan, menuju 150 ton/bulan pada Desember 2026.

03 · INFRASTRUCTURE

Quality control you can stand inside

Kendali mutu yang nyata secara fisik

01

Food-Grade Stainless Facility

Sorting, sieving, and handling on sanitized stainless-steel equipment.

Penyortiran, penyaringan, dan penanganan pada peralatan baja tahan karat yang disanitasi.

02

Controlled Clean-Room Environment

Enclosed, temperature-aware rooms protecting every batch.

Ruang tertutup dengan pengendalian suhu yang melindungi setiap batch.

03

Trained Operators, Full Hygiene Protocol

Hairnets, masks, and gloves — the same disciplined process every batch.

Penutup kepala, masker, dan sarung tangan — proses disiplin yang sama di setiap batch.

04

Calibrated Screening & In-Line QC

Precision mesh and trained eyes verify grain size and purity throughout.

Saringan presisi dan pemeriksaan terlatih memverifikasi ukuran serta kemurnian butiran.

04 · MANUFACTURING PROCESS

Four steps, held every batch

Empat tahap yang dijaga di setiap batch

01

Sieving

Calibrated screening — precision mesh sorts every grain to one consistent size.

Penyaringan terkalibrasi menyortir setiap butir ke ukuran yang seragam.

02

Handling

Controlled process — trained operators follow full hygiene protocol on every batch.

Proses terkendali — operator terlatih mengikuti protokol higiene penuh.

03

Result

Consistent every batch — uniform sugar spread and ready for controlled drying.

Konsisten di setiap batch — sebaran gula seragam dan siap dikeringkan.

04

The Standard

Uniform crystal size — free-flowing even crystals, the held specification every time.

Ukuran kristal seragam — spesifikasi yang dijaga setiap kali.

Our Three Forms

Tiga bentuk produk kami

All three come from the same organic coconut flower sap, tapped by hand and reduced over wood fire — then crystallised, moulded, or bottled. This catalogue covers Coconut Sugar only.

Ketiganya berasal dari nira bunga kelapa organik yang sama — disadap manual dan dimasak di atas tungku kayu, lalu dikristalkan, dicetak, atau dibotolkan.

Granulated

Gula Semut Kelapa

EXPORT

Premium natural sweetness with perfect dissolution — fast-dissolving and highly uniform, with rich caramel notes and exceptional consistency. An excellent alternative to refined cane and granulated table sugars.

Kemanisan alami premium yang larut sempurna — cepat larut, sangat seragam, dengan aroma karamel yang kaya.

Artisanal baking · sauces · dry rubs · hot coffee · iced teas · functional drinks

Moulded Block

Gula Kelapa Cetak

EXPORT

The core ingredient for exceptional flavour — naturally rich and highly versatile, bringing unmatched depth to sauces, bakery, and beverages. An excellent alternative to traditional slab and refined sugars.

Bahan inti untuk cita rasa istimewa — kaya secara alami dan sangat serbaguna.

Savoury sauces · glazes · braises · hot brews · teas · specialty beverages

Syrup

Sirup Gula Kelapa

EXPORT

Rich caramel depth with effortless dissolution — fast-pouring and highly soluble, no heat dissolution needed. An excellent alternative to refined liquid cane, corn, and agave syrups.

Kedalaman karamel yang kaya dan mudah larut — tanpa perlu pemanasan.

Glazes · dessert toppings · marinades · iced coffees · cocktails · beverage bases

APPEARANCE, SAFETY & SHELF LIFE

Brown granular powder, clumps easily broken apart; sweet with a typical nutty caramel aftertaste and no off-odour. Heavy metals — arsenic, cadmium, lead and mercury — all tested and within safe international limits. Particle sizes **14 · 16 · 18 · 30 · 50 mesh** for Granulated. **Shelf life 24 months** from production date in unopened original packaging.

Bubuk granul cokelat, gumpalan mudah dipecah; manis dengan aroma karamel bernuansa kacang, tanpa bau menyimpang. Logam berat telah diuji dan berada dalam batas aman internasional. Ukuran partikel 14–50 mesh untuk varian granul. Masa simpan 24 bulan dalam kemasan asli yang belum dibuka.

Packaging & Loading

Kemasan & pemuatan

Food-grade inner packaging inside export cartons or bottles, wrapped and palletized for export-ready container shipment.

OPTION 01

25 kg carton

Two 12.5 kg food-grade PE inner bags per export carton. For Granulated and Block.

2 x 12.5 kg PE bags · net 25 kg
Box 72 x 37 x 18 cm

OPTION 02

10 kg PE bag

Food-grade PE bags — available as an alternative for the Moulded Block variant.

10 kg food-grade PE bags · Block only

OPTION 03

1 L bottle

Food-grade plastic bottles for the Syrup variant, cartoned for transit.

1 L food-grade bottles · Syrup only

CONTAINER LOADING — GRANULATED & BLOCK

≈ 12 MT

1 x 20ft · palletized

≈ 14 MT

1 x 20ft · floor-loaded

≈ 24 MT

1 x 40ft · palletized

≈ 26 MT

1 x 40ft · floor-loaded

Kapasitas muat kontainer untuk varian granul dan cetak.

07 · HOW WE WORK TOGETHER

Ready to Order

Siap memesan

MOQ

12 MT — one 20ft container.

INCOTERMS

FOB — Tanjung Emas or Tanjung Priok.

PAYMENT

50% advance, 50% vs. shipping docs.

LEAD TIME

2-4 weeks depending on order.

SHELF LIFE

24 months, unopened packaging.

SAMPLE

Available immediately on request.
